MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Community Technical Assistance Grants Under the Formerly Utilized Sites Remedial Action Program (FUSRAP)

1. The U.S. Army Corps of Engineers is committed to actively promoting a broad-based public participation and community involvement process for the Formerly Utilized Sites Remedial Action Program (FUSRAP). However, by funding some groups and not others, the Corps could appear to be favoring specific points of view.
2. The Corps will support existing grants to states which were transferred from the DOE and will negotiate new or follow-on cooperative agreements with states, as appropriate. You should encourage community groups to work with state agencies and regulators who are funded through these agreements to insure that their interests are represented.
